

Create a trigger that automatically updates a EmployeeCount table with the total number of employees each time an employee is added or removed.

```
create table EmployeeCount(emp_count int);
```

```
DELIMITER //  
CREATE TRIGGER employee_count  
AFTER INSERT ON employee  
FOR EACH ROW  
BEGIN  
-- Update the count by incrementing by 1  
UPDATE EmployeeCount  
SET emp_count = emp_count + 1;  
END //  
DELIMITER ;
```

```
DELIMITER //  
CREATE TRIGGER employee_count_afterDelete  
AFTER DELETE ON employee  
FOR EACH ROW  
BEGIN  
-- Update the count by decrementing by 1  
UPDATE EmployeeCount  
SET emp_count = emp_count - 1;  
END //  
DELIMITER ;
```

Execute:

```
SELECT * FROM EmployeeCount;
```
