

1. With respect to above table , create view named as EmployeeDetails that contains id, first_name, last_name, salary of those employees whose salary is greater than the average salary from the employee table.

Syntax:

```
CREATE VIEW EmployeeDetails AS
```

```
SELECT id, first_name, last_name, salary
```

```
FROM employee
```

```
WHERE salary > (SELECT AVG(salary) FROM employee);
```

```
Select * from EmployeeDetails;
```
